PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

TEKISKY PRIVATE LIMITED COMPONY | JAN-2023 - Present

- Having 1 year of IT experience as a Front-End developer at Tekisky Pvt. Ltd.

PROJECTS -------

BOLLYWOOD-STYLE. | APRIL- 2023 TO AUG-2023

- Frontend development by using React js.
- Managing application level state by using useState and useEffect hooks and use filter and map function to render Api data in app which is in array of object form
- Redux perform main role in this project. Because many state and props are using that so that's why I can Use redux on my project to handle or fixed the props drilling process.
- I have successfully integrated APIs to create seamless user experiences that surpass expectations..
- Used technologies : ReactJS, JavaScript, Redux, MongoDB,.

INTERNSHIP

| JAN-2023 - APRIL-2023

- Tekisky Pvt. Ltd, 6 Months - As an intern at Tekisky Pvt. Ltd, I successfully completed a 6-month internship, focusing on E-commerce for the BollywoodStyle project.
