PROFILE

I Consider myself a resposible and orderly person. I am looking forward for my first work experience. I will show my caliber and gain good experience. To utilize my technical skill for achieving the target and developing the best performance in theorganization. I would like to implement my innovative ideas, skills and creativity for accomplishing the project.

PROJECTS

DBMS mini project on "ONLINE TOURISM MANAGEMENT SYSTEM"
We had created a web application using html where people can book their trip or their tourism package in online. In that package we included everything from food to transport for 4-5 days.

MAD mini project on "MUSIC PLAYER DEMO"

We had developed one music player demo application, here we had already saved some songs in the program and only those songs were playing in that application. Here we had a pause, restart, next and stop button.

Final year project on "RURAL PROBLEM SHARING AND SOLUTION PORTAL"

We had developed website for rural people who are facing issues, here panchyat head is the admin. We mainly included 3 modules here panchyat head, village head, and donor. Village need to register by giving some information and after that panchyat head is the responsible for all the village head registration and he only needs to verify and approve after that village head can login. Donor can register by themselves by giving some information.
