 vipulgirhestar@gmail.com  Akola, Maharashtra

PROFESSIONAL SUMMARY:

Passionate Full Stack Web Developer proficient in MERN stack. Skilled in building functional and scalable web applications in collaboration with product managers, designers, and developers. Expertise includes server-side API development using Node.js and Express.js, frontend development using React.js, and efficient query writing with MongoDB. Strong problem-solving and communication skills contribute to successful and reliable web development.

EDUCATION:

Full Stack Web Development

Masai School

January 2023 - October 2023

Bengaluru, Karnataka

BSc Information Technology

Radhakisan Lakshminarayan Toshniwal College of Science

July 2020 - September 2023

Akola, Maharashtra

TECHNICAL SKILLS:

HTML5 | CSS3 | JavaScript | React.js | Redux | Node.js | Express.js | RESTful APIs | MongoDB | Git | Github | Socket.io | WebRTC

SOFT SKILLS:

Effective Communication | Attention to Detail | Teamwork | Decision making

PROJECTS:

Crypto Explorer

- Developed an intuitive cryptocurrency exploration web application using *React.js* and *Material Ui* for a seamless trading and portfolio management experience
- Utilized *JavaScript* and *Vercel* for high-performance and responsive web design
- Independently developed the project, showcasing the ability to work individually and take ownership of the development process

Tech Stack:

JavaScript | React.js | Material Ui | Vercel | Responsive Web Design |

RealTime Chat Application

- Created a real-time chat application using *React.js* for the frontend and *Node.js* with *Socket.io* for the backend
- Implemented features for instant messaging and real-time notifications using *Socket.io*
- Utilized *Git* for version control and collaborative development workflows

Tech Stack:

React.js | Node.js | Express.js | Socket.io | Git | Responsive Web Design |

Travelious Website

- Contributed significantly to the development of a robust travel booking platform using *React* and *Redux*, featuring secure user authentication, tour search, booking capabilities, and secure payments
- Collaborated with a team of 4 developers, showcasing excellent communication and collaboration skills
- Utilized *Chakra UI* and *Tailwind CSS* for responsive web design

Tech Stack:

React | Redux | Chakra UI | Tailwind CSS | Responsive Web Design | Netlify |
